INDEPENDENT AUDITOR'S REPORT

To the Members of IL JIN Electronics (India) Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of IL JIN Electronics (India) Private Limited ("the Company"), which comprise the Balance sheet as at March 31, 2026, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to Note 55 to the financial statements regarding restatement of the comparative financial information for the year ended March 31, 2025 pursuant to the Scheme of Amalgamation of Ever Electronics Private Limited ('Transferee company') with the Company, as approved by the National Company Law Tribunal vide order dated May 30, 2025.

Our opinion is not modified in respect of this matter.

S.R. Batliboi & Co. LLP Gurugram

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

The Director's report is not made available to us as at the date of this auditor's report. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

S.R. Batliboi & Co. LLP Gurugram

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we report to the extent applicable, that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph (i)vi below on reporting under Rule 11(g);

   (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

   (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

   (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;

   (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (i)vi below on reporting under Rule 11(g);

   (g) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;

   (h) In our opinion, the managerial remuneration for the year ended March 31, 2026 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;

   (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 43 to the financial statements;

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

iv. a) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 59 to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 59 to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. No dividend has been declared or paid during the year by the Company.

vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled at database level, as described in Note 61 to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software where the audit trail has been enabled. Additionally, the audit trail of relevant prior years has been preserved by the Company as per the statutory requirements for record retention, to the extent it was enabled and recorded in those respective years, as stated in Note 61 to the financial statements.

ANNEXURE '1' REFERRED TO IN PARAGRAPH UNDER THE HEADING "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" OF OUR REPORT OF EVEN DATE

Re: IL JIN Electronics (India) Private Limited ("the Company")

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i)(a)(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangibles assets.

(b) Property, Plant and Equipment have been physically verified by the management during the year and no material discrepancies were identified on such verification.

(c) The title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in Note 4 to the financial statements included in property, plant and equipment are held in the name of the Company. Certain title deeds of the immovable properties, in the nature of freehold land, as indicated in the below mentioned case which was acquired pursuant to a Scheme of Amalgamation approved by National Company Law Tribunal's (NCLT) Order dated May 30, 2025, are not individually held in the name of the Company, however the deed of merger has been registered by the Company on June 27, 2025.

Description of property	Gross carrying value (INR lakhs)	Held in name of	Whether promoter, director or their relative or employee	Period held	Reason for not being held in the name of Company
Freehold land at Gat No.161/2, Pimple Jagtap Road, Bhima Koregaon, Pune, Maharashtra	819.00	Ever Electronics Private Limited	No	June 27, 2025	Acquired pursuant to a scheme of amalgamation

(d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2026.

(e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii)(a) Physical verification of inventory has been conducted at reasonable intervals during the year by management. In our opinion, the coverage and procedure of such verification by the management is appropriate. There were no discrepancies of 10% or more noticed, in the aggregate for each class of inventory.

(b) As disclosed in Note 27 to the financial statements, the Company has been sanctioned working capital limits in excess of INR five crores in aggregate from banks during the year on the basis of security of current assets of the Company. Based on the records examined by us in the normal course of audit of the financial statements, the quarterly returns/statements filed by the Company with such banks are in agreement with the audited/ unaudited books of accounts of the Company. The Company has not been sanctioned working capital limits in excess of INR five crores in aggregate from financial institutions during the year on the basis of security of current assets of the Company.

(iii)(a) During the year the Company has provided loans to companies and employees as follows:

Amount in INR lakhs

Particulars	Loans
Aggregate amount granted/ provided during the year	
- Subsidiaries	36,737.96
- Joint Venture	123.02
- Others (employees)	186.02
Balance outstanding as at balance sheet date in respect of above cases	
- Subsidiaries	36,221.24
- Others (employees)	85.96

During the year the Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to firms, Limited Liability Partnerships or any parties.

(b) During the year the investments made, and the terms and conditions of the grant of all loans, investments to companies and employees are not prejudicial to the Company's interest.

(c) The Company has granted loans during the year to companies and employees where the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular.

(d) There are no amounts of loans granted to companies and employees which are overdue for more than ninety days.

(e) There were no loans granted to companies and employees which was fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loan given to the same parties.

(f) The Company has not granted any loans either repayable on demand or without specifying any terms or period of repayment to companies and employees.

(iv) Loans and investments in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with by the Company. There are no guarantees, and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of printed circuit boards and electronic components, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same

(vii)(a) Undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

S.R. Batliboi & Co. LLP Gurugram

(b) The dues of goods and services tax, sales-tax and customs duty have not been deposited on account of any dispute, are as follows:

Name of the statue	Nature of the dues	Amount (INR lakhs)	Deposit under protest (INR lakhs)	Period to which the amount relates	Forum
Uttarakhand Value Added Tax Act, 2005	Sales Tax	1,389.82	-	FY 2004-2005 to 2009-2010	Deputy commissioner of sales tax, Dehradun
The Central Goods and Service Tax Act, 2017	Goods and Service Tax	40.11	40.11	FY 2024-25	Assistant Commissioner Appeal, Noida (UP)

There are no dues of provident fund, employees' state insurance, income tax, service tax, excise duty, cess, and other statutory dues which have not been deposited on account of any dispute.

(viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.

(ix)(a) The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) Term loans were applied for the purpose for which the loans were obtained.

(d) On an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or joint ventures. The Company does not have any associate.

(f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or joint ventures. Hence, the requirement to report on clause (ix)(f) of the Order is not applicable to the Company. The Company does not have any associate.

(x)(a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company.

(b) The Company has complied with provisions of sections 42 and 62 of the Companies Act, 2013 in respect of the preferential allotment or private placement of shares during the year. The amount raised, have been used for the purposes for which the funds were raised except for idle/surplus funds amounting to INR 32,600.00 lakhs which were not required for immediate utilization and which have been gainfully invested in liquid investments payable on demand. The maximum amount of idle/surplus funds invested during the year was INR 32,600.00 lakhs, of which INR 32,600.00 lakhs was outstanding at the end of the year.

(xi)(a) No material fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor/ secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.

(xii) The Company is not a nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii) of the Order is not applicable to the Company.

(xiii) Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.

(xiv)(a) The Company has an internal audit system commensurate with the size and nature of its business.

(b) The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.

(xv) The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.

(xvi)(a) The provisions of section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934) are not applicable to the Company. Accordingly, the requirement to report on clause (xvi)(a) of the Order is not applicable to the Company.

(b) The Company is not engaged in any Non-Banking Financial or Housing Finance activities. Accordingly, the requirement to report on clause (xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi) of the Order is not applicable to the Company.

(d) There is no Core Investment Company as a part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable. to the Company.

(xvii) The Company has not incurred cash losses in the current financial year. The Company has not incurred cash losses in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.

S.R. Batliboi & Co. LLP
Gurugram

(xix) On the basis of the financial ratios disclosed in Note 47 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx)(a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act. This matter has been disclosed in Note 56 to the financial statements.

(b) There are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of Companies Act. This matter has been disclosed in Note 56 to the financial statements.

ANNEXURE '2' TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF IL JIN ELECTRONICS (INDIA) PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of IL JIN Electronics (India) Private Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

S.R. Batliboi & Co. LLP Gurugram

Meaning of Internal Financial Controls With Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

IL JIN Electronics (India) Private Limited
CIN: U31909PN2001PTC224946
Notes to Financial Statements for the year ended 31 March 2026

1. Corporate information

The financial statements comprise financial statements of IL JIN Electronics (India) Private Limited (CIN: U31909PN2001PTC224946) (the Company) for the year ended 31 March 2026. The Company is a deemed public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is located at Gat No.161/2 Pimple Jagtap Road, Koregaon Bhima, Haveli, Pune, Maharashtra -412216.

The Company is principally engaged in the business of manufacturing and trading of printed circuit boards and electronic components.

The financial statements were approved for issue in accordance with a resolution of the Board of Directors on 14 May 2026.

2. Material accounting policies

2.1 Statement of compliance and basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (as amended from time to time) (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Derivative financial instruments, and
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- Equity settled ESOP at grant date fair value at each reporting date.

The accounting policies and related notes further described the specific measurements applied for each of the assets and liabilities.

The financial statements are presented in INR, and all values are rounded to the nearest lacs (INR 00,000), except when otherwise indicated.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

2.2 Summary of material accounting policies

a. Business combinations and goodwill

Basis of Business combinations:

The Company determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interests method in accordance with the requirements of Appendix C of Ind AS 103 – Business Combinations. The comparative information in these financial statements has been restated as if the combination had occurred from the beginning of the earliest period presented as per the requirement of appendix C of Ind AS 103 and assets and liabilities acquired has been recognised as follows:

- The assets and liabilities of the combining entities are recognized at their carrying amounts.
- No adjustments are made to reflect fair values or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with corresponding balance appearing in the financial statements of the transferee
- The identity of the reserves shall be preserved and shall appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor.
- The difference, if any, between the net assets acquired and consideration agreed has been recognised in capital reserve in the other equity.

b. Investment in subsidiaries and joint ventures

A subsidiary is an entity that is controlled by another entity. The Company's investments in its subsidiaries are accounted at cost less impairment.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Company's investments in its subsidiaries and joint venture are accounted at cost less impairment.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Impairment of investments

The Company reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss.

- When an impairment loss subsequently reverses, the carrying amount of the Investment is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the cost of the Investment. A reversal of an impairment loss is recognised immediately in Statement of Profit or Loss.

c. Current versus non-current classification

The Company segregates assets and liabilities into current and non-current categories for presentation in the balance sheet after considering its normal operating cycle and other criteria set out in Ind AS 1, "Presentation of Financial Statements". For this purpose, current assets and liabilities include the current portion of non-current assets and liabilities respectively. Deferred tax assets and liabilities are always classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified period up to twelve months as its operating cycle.

d. Foreign currencies

The financial statements are presented in Indian Rupee (INR), which is the Company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's at functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in the Statement of profit or loss.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Company determines the transaction date for each payment or receipt of advance consideration.

e. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.
A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company determines the policies and procedures for both recurring fair value measurement unquoted financial assets measured at fair value.

External valuers are involved for valuation of significant assets and liabilities. Involvement of external valuers is decided upon annually by the Management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (notes 3, 8, 50 and 51)
- Quantitative disclosures of fair value measurement hierarchy (note 50)
- Financial instruments (including those carried at amortised cost) (notes 8, 9, 10, 14, 15, 16, 17, 18, 22, 23, 24, 27, 28, 29, 50, 51)

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

f. Revenue from contract with customer

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

The disclosures of significant accounting judgements, estimates and assumptions relating to revenue from contracts with customers are provided in Note 3.

Sale of products

Revenue from sale of products is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the products. The normal credit term is 7 days to 90 days upon delivery.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various schemes offered by the Company as part of the contract

Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Some contracts for the sale of products provide customers with a right of return. The rights of return give rise to variable consideration.

- Rights of return
  The Company uses the expected value method to estimate the variable consideration given the large number of contracts that have similar characteristics. The Company then applies the requirements on constraining estimates of variable consideration in order to determine the amount of variable consideration that can be included in the transaction price. A refund liability is recognized for the goods that are expected to be returned (i.e., the amount not included in the transaction price). A right of return asset (and corresponding adjustment to cost of sales) is also recognised for the right to recover the goods from a customer.

The disclosures of significant estimates and assumptions relating to the estimation of variable consideration for returns is provided in Note 3.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Other revenue streams

Interest Income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in "other income" in the Statement of Profit and Loss.

Interest income on bank deposits is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income is included under the head "other income" in the Statement of Profit and Loss.

Contract balances

Trade receivables

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (q) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Company performs under the contract (i.e., transfers control of the related goods or services to the customer).

Assets and liabilities arising from rights of return

Right of return assets

A right-of-return asset is recognised for the right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods and any potential decreases in value. The Company updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products.

Refund liabilities

A refund liability is recognised for the obligation to refund some or all of the consideration received (or receivable) from the customer. The Company's refund liabilities arise from customers' right of return. The Company updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

g. Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

h. Taxes

Tax expense comprises current tax expense and deferred tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences.
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Company relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

The Company offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority which intends either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Goods and Services Tax (GST) paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the amount of Goods and Service Tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current assets/ liabilities in the balance sheet.

Minimum alternate tax

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the company recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

i. **Property, plant and equipment**

Freehold land is carried at historical cost (net of accumulated impairment loss, if any). All other items of Plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Capital work in progress is stated at cost, net of accumulated impairment loss, if any.
Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Block of asset	Useful life as per Companies Act, 2013 (in years)
Building	30
Plant and machinery	5 – 15
Computer	3
Furniture and fixture	10
Office equipment	5-10
Vehicles	8-10
Leasehold improvements	Lower of Lease term or Useful life

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The Company reviews the estimated residual values and expected useful lives of assets at least annually. In particular, the Company considers the impact of health, safety and environmental legislation in its assessment of expected useful lives and estimated residual values.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

j. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as finite.
Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss. when the asset is derecognised.

Research and development costs

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Research costs are expensed as incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete, and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

A summary of the policies applied to the Company's intangible assets is, as follows:

Intangible assets	Useful lives	Amortisation method used	Internally generated or acquired
Computer software	Finite (5 years)	Amortised on a straight-line basis over the period of the asset	Acquired
Development costs	Finite (7 years)	Amortised on a straight-line basis over the period of expected future sales from the related project	Internally generated

k. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

- **Right-of-use assets**

  The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Land 90 years
- Building 5 to 9 years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.
The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (l) Impairment of non-financial assets.

- **Lease Liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

- **Short-term leases and leases of low-value assets**

The Company applies the short-term lease recognition exemption to its short-term leases of building, machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

The Company applies the low-value assets recognition exemption on a lease-by-lease basis. In making this assessment, the Company also factors below key aspects:

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

- The assessment is conducted on an absolute basis and is independent of the size, nature, or circumstances of the lessee.
- The assessment is based on the value of the asset when new, regardless of the asset's age at the time of the lease.
- The lessee can benefit from the use of the underlying asset either independently or in combination with other readily available resources, and the asset is not highly dependent on or interrelated with other assets.

If the asset is subleased or expected to be subleased, the head lease does not qualify as a lease of a low-value asset.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

I. Inventories

Inventories are valued at the lower of cost and net realizable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and intermediate products (including manufactured components) : cost includes cost of direct materials and labor and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on first in, first out basis.
- Traded goods: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Stores and spares, consumables and packing materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

m. Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Company operates, or for the market in which the asset is used.

Impairment losses, including impairment on inventories, are recognised in the statement of profit and loss.

The impairment assessment for all assets is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

n. Provisions and Contingent liabilities

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. The Company does not recognize a contingent liability but discloses its existence and other required disclosures in notes to the financial statements, unless the possibility of any outflow in settlement is remote. as per the requirements of Ind AS 37.

Provisions and contingent liabilities are reviewed at each balance sheet date.

o. Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan in India, which requires contributions to be made to a separately administered fund.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Company recognizes expected cost of short-term employee benefit as an expense, when an employee renders the related service.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date.

Remeasurement gains/losses are immediately taken to the statement of profit and loss and are not deferred. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

p. Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions).

Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

statement of profit and loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Company's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

When the terms of an equity-settled award are modified, the minimum expense recognised is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the entity or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

q. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition
- Financial assets at Fair Value through profit and loss (FVTPL)

Financial assets at amortised cost

A 'financial assets' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

This category generally applies to trade receivables, security deposits and other receivables. For more information on receivables, refer note 10,14 and 18.

Financial assets at FVTOCI

A 'financial assets' is classified as at the FVTOCI if both of the following criteria are met:

a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
b) The asset's contractual cash flows represent Solely Payments of Principal and Interest.

Financial assets included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Profit and loss.

The Company's debt instruments at fair value through OCI includes investments in quoted perpetual debt instruments included under financial assets.

Financial assets designated at fair value through OCI

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS 103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Financial assets at FVTPL

Financial assets in this category are those that are held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109 i.e. they do not meet the criteria for classification as measured at amortised cost or FVOCI. Management only designates an instrument at FVTPL upon initial recognition, if the designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis. Such designation is determined on an instrument-by-instrument basis.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Interest earned on instruments designated at FVTPL is accrued in interest income, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using the contractual interest rate.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognised the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are also provided in the following notes:

- Disclosures for significant assumptions – see Note 50
- Non-current investments – see Note 08
- Trade receivables and contract assets – see Note 14

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For debt instruments at fair value through OCI, the Company applies the low credit risk simplification. At every reporting date, the Company evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument. In addition, the Company considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.
The Company's debt instruments at fair value through OCI comprise solely of quoted bonds that are graded in the top investment category (Very Good and Good) by the Good Credit Rating Agency and, therefore, are considered to be low credit risk investments. It is the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Company uses the ratings from the Good Credit Rating Agency both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

Financial liabilities

Initial recognition ,measurement and presentation
Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or as payables as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, other financial liabilities, financial guarantee contracts and derivative financial instruments.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition as at fair value through profit or loss only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortised cost (Loans and borrowings)

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer Note 22 and 27.

Supplier finance arrangements

The Company has established supplier finance arrangements (Refer Note 29). The Company evaluates whether financial liabilities covered such arrangements continue to be classified within trade payables, or they need to be classified as a borrowing or as part of other financial liabilities/ as a separate line item on the face of the balance sheet. Such evaluation requires exercise of judgment basis specific terms of the arrangement.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

The Company classifies financial liabilities covered under supplier finance arrangement within trade payables in the balance sheet only if (i) the obligation represents a liability to pay for goods and services, (ii) is invoiced and formally agreed with the supplier, (iii) is part of the working capital used in its normal operating cycle, (iv) the company is not legally released from its original obligation to the supplier, and has not assumed a new obligation toward the bank, and another party (iv) there is no substantial modification to the terms of the liability.

If one or more of the above criteria are not met, the Company derecognises its original liability toward the supplier and recognise a new liability toward the bank which is classified as other financial liability, depending on factors such as whether the Company (i) has obligation toward bank, (ii) is getting extended credit period such that obligation is no longer part of its working capital cycle, (iii) is paying interest directly or indirectly, (iv) has provided guarantee or security, and/ or (v) is recognized as borrower in the bank books.

Cash flows related to liabilities arising from supplier finance arrangements that continue to be classified in trade payables in the balance sheet are included in operating activities in the statement of cash flows, when the Company finally settles the liability.

In cases, where the Company has derecognised its original liability toward the supplier and recognise a new liability toward the bank, the Company has assessed that the bank is acting as its agent in making payment to the supplier. Accordingly, the Company presents operating cash outflow and financing cash inflow, when bank made payment to the supplier. The payment made by the Company to the bank toward interest, if any, as well as on settlement is presented as financing cash outflow.

Financial guarantee contracts

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in Statement of Profit and Loss
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified to Statement of Profit and Loss at the reclassification date

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

r. Derivative financial instruments

Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss, except for the effective portion of cash flow hedges (if any), which is recognised in OCI and later reclassified to profit or loss when the hedge item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability.

s. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Company's cash management.

t. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

u. Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holders of Company by the weighted average number of equity shares outstanding during the financial year.

The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Company and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

v. Events after the reporting period

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

information affects the amounts that it recognises in its separate financial statements. The Company will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company will not change the amounts recognised in its separate financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

2.3 Changes in accounting policies and disclosures

New and amended standards

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. The Company has applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after April 01, 2025.

(i) Amendments to Ind AS 21 - Lack of exchangeability

The Ministry of Corporate Affairs (MCA) notified the Companies (Indian Accounting Standards) Amendment Rules, 2025, which amend Ind AS 21, The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.

The amendments are effective for annual reporting periods beginning on or after 1 April 2025. When applying the amendments, an entity cannot restate comparative information.

The amendments do not have a material impact on the Company's financial statements.

(ii) Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants

In August 2025, the MCA notified amendments to paragraphs 69 to 76 of Ind AS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

If there is a breach of a material covenant of a long term loan arrangement on or before the end of the reporting period, resulting in the liability becoming payable on demand as at the reporting date, and the

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

lender agrees—after the reporting period but before the financial statements are approved for issue—not to demand repayment for at least 12 months as a consequence of the breach, this shall be treated as an adjusting event. Accordingly, the entity is not required to classify the liability as current.
The amendments are effective for annual reporting periods beginning on or after 1 April 2025 retrospectively in accordance with Ind AS 8.

The amendments do not have any impact on Company's financial statements

(iii) Amendments to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements
In August 2025, the MCA notified amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.
The amendment had no impact on the Company's financial statements as the Company has not entered any contracts of such nature.

(iv) International Tax Reform—Pillar Two Model Rules – Amendments to Ind AS 12
In August 2025, the MCA notified amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules and include:
•A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and
•Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after 1 April 2025, but not for any interim periods ending on or before 31 March 2026.
The amendments had no impact on the Company's financial statements as the Company is not in scope of the Pillar Two model rules.

2.4 Standards notified but not yet effective

The amendments to the standards that are notified by the Ministry of Corporate Affairs (MCA), but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company will adopt these amendments to the standards, when they become effective.

(i) Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants and Ind AS 10 Events after the Reporting Period

Ind AS 10 has been amended to remove the previous treatment under which a lender's post reporting date waiver—granted before the financial statements were approved for issue—of a breach of a material covenant in a long term loan arrangement that occurred on or before the end of the reporting period,

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

resulting in the liability becoming payable on demand at the reporting date, was regarded as an adjusting event.

For annual reporting periods beginning on or after 1 April 2026, any breach of a covenant—whether material or immaterial—occurring on or before the reporting date will, in accordance with Ind AS 1, require the related liability to be classified as current, unless the lender has granted a waiver of the breach on or before the reporting date and has agreed not to demand repayment for at least 12 months after the reporting date as a consequence of the breach. Such a waiver shall be treated as an adjusting event.

The amendments are effective for annual reporting periods beginning on or after 1 April 2026 retrospectively in accordance with Ind AS 8.

3. **Significant accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements:

Determining the lease term of contracts with renewal and termination options – Company as lessee

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

Revenue from contracts with customers

The Company applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining method to estimate variable consideration and assessing the constraint

Certain contracts for the sale of goods include a right of return that give rise to variable consideration. In estimating the variable consideration, the Company is required to use either the expected value

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Company determined that the expected value method is the appropriate method to use in estimating the variable consideration for the sale of goods with rights of return, given the large number of customer contracts that have similar characteristics.

Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Share-based payments

The Company measures the cost of equity-settled transactions with employees using a Black Scholes Options Pricing model to determine the fair value of the liability incurred. Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in Note 54.

Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated, the management considers the interest rates of government bonds in currencies consistent with the currencies of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables for the country. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the country.

Further details about gratuity obligations are given in Note 49.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. See Note 50 and 51 for further disclosures.

Revenue recognition - Estimating variable consideration for returns

The Company estimates variable considerations to be included in the transaction price for the sale of goods with rights of return. The Company developed a statistical model for forecasting sales returns. The model used the historical return data of each product to come up with expected return percentages. These percentages are applied to determine the expected value of the variable consideration. Any significant changes in experience as compared to historical return pattern will impact the expected return percentages estimated by the Company.

The Company updates its assessment of expected returns quarterly and the refund liabilities are adjusted accordingly. Estimates of expected returns are sensitive to changes in circumstances and the Company's past experience regarding returns entitlements may not be representative of customers' actual returns in the future.

Provision for expected credit losses of trade receivables

The Company uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Company's trade receivables is disclosed in Note 51

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Intangible asset under development

The Company capitalizes intangible asset under development for a project in accordance with the accounting policy. Initial capitalization of costs is based on management's judgement that technological and economic feasibility is confirmed, usually when a product development project has reached a defined milestone according to an established project management model. In determining the amounts to be capitalised, management makes assumptions regarding the expected future cash generation of the project and the expected period of benefits.

Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Notes:

(i) The Company acquired 9,36,000 fully paid-up equity shares of Ascent Circuits Private Limited ("Ascent") on 02 February 2024, representing 60% of its total paid-up equity share capital, for a total consideration of INR 31,100.13 lakhs. Out of the total consideration, INR 29,600.13 lakhs was paid on the date of acquisition, and the balance amount of INR 1,500.00 lakhs was paid in the previous year in accordance with the terms of the Share Purchase Agreement.

Further, the Company has also written a put option and simultaneously bought a call option for acquisition of remaining 40% stake in Ascent and accordingly, initially recognised INR 1,760.00 lakhs as net derivative liability for acquisition of remaining shares. As on 31 March 2026, the management has remeasured the aforesaid derivative instrument as net derivative liability of INR 1,500.00 lakhs (31 March 2025 : INR 1,770.00 lakhs), based on valuation of an independent value (refer note 50 for the method and assumptions used for the valuation).

(ii) The Board of Directors of the Company, at its meeting held on 16 September 2023, approved an arrangement to enter into a joint venture with Nexxbase Marketing Private Limited ("Nexxbase"). A Joint Venture Agreement was executed on 18 September 2023, and the joint venture entity, Stellrek Technologies Private Limited ("Stellrek"), was incorporated on 26 December 2023. Pursuant to the said agreement, the Company invested INR 5.00 lakh in equity shares of Stellrek, representing 50% of its total paid-up equity share capital. Accordingly, Stellrek was accounted for as a joint venture of the Company in accordance with Ind AS 111 - Joint Arrangements.

On 15 February 2026, the Company entered into an Amendment Agreement to the Joint Venture Agreement with Stellrek and Nexxbase. Under the terms of the Amendment Agreement, the Company obtained the right to nominate and appoint the majority of the directors on the Board of Stellrek. Consequently, the Company acquired control over Stellrek through majority Board representation and decision-making authority over its relevant activities. Accordingly, Stellrek ceased to be a joint venture of the Company with effect from 14 February 2026 and became a subsidiary of the Company with effect from 15 February 2026.

(iii) The Joint Venture Committee of the Board of Directors of the Company, at its meeting held on 15 October 2024, approved the formation of a joint venture alliance with Korea Circuit Co. Ltd. to undertake the business of manufacturing high-density interconnect, flexible and semiconductor substrate printed circuit boards (PCBs). Pursuant to this approval, a Joint Venture Agreement was executed on the same date.

Subsequently, Ascent-K Circuit Private Limited ("Ascent-K") was incorporated on 07 April 2025. On the date of incorporation, the Company subscribed to 7,00,000 fully paid-up equity shares of Ascent-K, representing 70% of its total paid-up equity share capital, for a consideration of INR 70.00 lakhs. The remaining 30% of the equity share capital was subscribed to by Korea Circuit Co. Ltd. Pursuant of the investment, the Company obtained control over Ascent-K, and accordingly, Ascent-K became a subsidiary of the Company with effect from 07 April 2025.

(iv) The strategic Alliance Committee of the Board of Directors of the Company, at its meeting held on 27 June 2025, approved the execution of a Shareholders' Agreement and a Share Purchase Agreement (collectively referred to as the "Definitive Agreements") for investment in Power-One Micro Systems Private Limited ("Power-One").

Pursuant to the said Definitive Agreements, the Company acquired 2,63,520 fully paid-up equity shares of Power-One on 05 August 2025, representing 60% of its total paid-up equity share capital, for an initial consideration of INR 26,200.00 lakhs, subject to adjustments in accordance with the terms of the Definitive Agreements. Out of the total consideration, INR 386.00 lakhs has been recognised as purchase consideration receivable as at 31 March 2026 under other non-current financial assets.

Pursuant of the acquisition, the Company obtained control over Power-One, and accordingly, Power-One became a subsidiary of the Company with effect from 05 August 2025.

Further, the Company has written a put option and simultaneously acquired a call option in respect of the remaining 40% equity stake in Power-One. In accordance with Ind AS 109 - Financial Instruments, a derivative liability of INR 2,852.00 lakhs has been recognised in respect of these options for the potential acquisition of the remaining shares, based on a valuation carried out by an independent valuer (refer Note 50 for the valuation methodology and key assumptions).

(v) The strategic Alliance Committee of the Board of Directors of the Company, at its meeting held on 12 November 2025, approved the execution of a Shareholders' Agreement and a Share Purchase Agreement (together referred to as the "Definitive Agreements") for investment in Shogun Technoarts Private Limited ("Shogun"). Pursuant to these agreements, the Company acquired majority control in Shogun.

The Company has acquired 7,92,000 fully paid equity shares of shogun on 01 December 2025, representing 80% of the equity share capital of Shogun for an initial purchase consideration of INR 50,597.55 lakhs. Through this acquisition, the Company obtained control over Shogun. Consequently, Shogun has been classified as a subsidiary of the Company effective 01 December 2025.

In accordance with the terms of the Definitive Agreements, the Company has also recognised a deferred consideration of INR 12,301.45 lakhs for the acquisition of the remaining 20% equity stake. Interest payable on this deferred consideration amounts to INR 319.55 lakhs. In line with Ind AS 109 – Financial Instruments, the deferred consideration has been recognised at its present value, and the discounting impact of INR 319.55 lakhs has been presented separately as part of finance costs. The discounting has been carried out using a discount rate of 8.00% per annum (refer note 50 for the method and assumptions used for the valuation).

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

(vi) The strategic Alliance Committee of the Board of Directors of the Company, at its meeting held on 15 September 2025, approved the execution of a Share Purchase Agreement for the acquisition of 100 ordinary shares, representing 100% of the equity share capital of IL JIN Holding Ltd ("IL JIN Holding"), for a consideration of New Israel Shekel (NIS) 100 (equivalent to INR 0.03 lakhs). The acquisition was completed on 21 September 2025, pursuant to which IL JIN Holding became a wholly owned subsidiary of the Company.

IL JIN Holding, a company incorporated under the laws of the State of Israel, has been established as a Special Purpose Vehicle (SPV) to act as a dedicated investment platform for the Company, with the objective of supporting and facilitating its strategic international investments and acquisitions.

Further, on 26 September 2025, the Board of Directors approved an additional investment in IL JIN Holding by way of subscription to fresh ordinary shares and grant of loans for its principal business activities. Accordingly, on 06 October 2025, the Company subscribed to 11,04,39,476 ordinary shares of NIS 1 each, aggregating to NIS 1,104.39 lakhs (equivalent to INR 29,636.43 lakhs). In addition, the Company advanced an unsecured loan of NIS 697.79 lakhs (equivalent to INR 19,695.94 lakhs) to IL JIN Holding to enable further investment in Unitronics (1989) (R"G) Ltd., a publicly traded company based in Israel.

(vii) Following the impairment testing principles of Ind AS 36 "Impairment of Assets", the Company has assessed the recoverable amount of the investment in its subsidiaries companies and joint venture company. The recoverable amount is higher of fair value less cost to disposal and value in use. The investment made by the Company in the subsidiaries and joint venture are strategic investments. Basis independent valuation done by external valuer and internal assessment done by the management, considering the present value of projected future cash flow from business of the subsidiary companies and joint venture and considering value of surplus assets, the management is confident that the impairment in the value of investments, if any, is temporary in nature and thereby no impact for the reduction in the value needs to be considered in the financial statements.

The value in use of the underlying investment is determined basis discounted cash flow model. The discounted cash flow calculations uses management assumptions and pre tax cash flow projections based on financial budgets approved by respective entities management covering a 5 years period. Cash flow projection beyond 5 years time period are extrapolated using the estimated growth rates which is consistent with forecasts included in industry reports specific to industry in which the component operates. The following assumptions has been considered by the independent valuer in the valuation done for the year ending:

Assumptions	As at 31 March 2026	As at 31 March 2025	Approach used in determining value
Weighted average Cost of capital % (WACC/ discount rate)	13.53%	15.50%	The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Company's investors. The cost of debt is based on the interest-bearing borrowings the Company is obliged to service.
Long term growth rate	5.00%	5.00%	Long term growth rate has been taken basis financial budgets and projections approved by management which is in line with industry growth rate

Based on the analysis, management believes that adequate headroom is available and change in any of above assumption would not cause any material possible change in carrying value of the entities over and above its recoverable amount, other than those already accounted.

Sensitivity analysis of assumptions

The Company has performed sensitivity analysis on the key assumptions by +/- 2% for each of the assumptions used and ensured that the valuation is appropriate and there is no further impairment.

17 Loans (current)		
(Unsecured, considered good)		
Loans to related parties (refer note 44 and 57)	-	55.41
Loans to employees	85.96	41.59
	85.96	97.00

Notes:-
(i) The Company does not have any loans which are either credit impaired or where there is significant increase in credit risk.
(ii) Refer note 50- Fair value disclosures for disclosure of fair value in respect of financial assets measured at amortised cost and note 51 - Financial risk management for assessment of expected credit losses.
(iii) Loans are non-derivative financial assets which generate a fixed or variable interest income for the Company and are measured at amortised cost. The carrying value may be affected by changes in the credit risk of the counterparties.
(iv) The Company does not have any loans or advances in the nature of loans granted to promoters, directors, KMPs and the related parties (as defined under the Companies Act, 2013), either severally or jointly with any other person that are repayable on demand or without specifying any terms or period of repayment.

18 Other financial assets (current)

IL JIN Electronics (India) Private Limited

	As at 31 March 2026	As at 31 March 2025
20 Equity Share Capital		
Authorised share capital		
1,60,00,000 (31 March 2025: 95,00,000) Equity shares of INR 10 each	1,600.00	950.00
40,00,000 (31 March 2025: Nil) Compulsory Convertible Preference shares (CCPS) of INR 10 each	400.00	-
	2,000.00	950.00

Pursuant to the Scheme of Amalgamation approved by the National Company Law Tribunal (NCLT), the Authorised equity share capital of the Company is increased from INR 400.00 lakh to INR 950.00 lakh to accommodate the amalgamation of Ever Electronics Private Limited (erstwhile fellow subsidiary company) with the Company (refer note 55). Further, the Company has also increased its authorised share capital by INR 650.00 lakh i.e. 65,00,000 equity share of INR 10 each.

Issued, subscribed capital and fully paid up		
54,16,265 (31 March 2025: 39,32,592) Equity shares of INR 10 each [refer note (i) below]	541.63	393.26

Shares pending issuance:		
Nil (31 March 2025: 14,45,259 equity shares of INR 10 each, pursuant to amalgamation of Ever Electronics Private Limited with the Company (refer note 55)	-	144.53
	806.68	537.79

i) **Terms/rights attached to equity shares**

The Company has only one class of equity shares having a par value of INR 10 each. Each holder of equity share is entitled to one vote per share. In the event of liquidation of the Company, holders of equity shares will be entitled to receive any of the remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

Terms/rights attached to compulsory convertible preference shares (CCPS)

The Company has issued fully paid-up Compulsorily Convertible Preference Shares having a face value of INR 10 per share. Each holder of CCPS shall be entitled to rights equivalent to those of a holder of Equity shares corresponding to the number of Equity shares issuable upon conversion of such CCPS. The CCPS shall confer upon the holders rights that rank pari passu with the rights attached to Equity shares to the extent applicable, and such rights shall constitute special rights attached to the CCPS.

The CCPS shall carry a non-cumulative and non-participating preferential dividend at the rate of 0.001% per annum, in accordance with the terms of issue.

Unless otherwise mutually agreed between the Parties, the CCPS shall be converted into Equity shares in the conversion ratio of 1:1 such that each CCPS shall convert into one fully paid-up Equity share of face value INR 10 each, subject to customary adjustments for share splits, bonus issues, recapitalizations and other corporate actions.

Nature and purpose of other equity

Securities premium
Securities premium represents premium received on issue of shares. The securities premium is utilised in accordance with the provisions of the Companies Act, 2013.

Employee stock option outstanding account
The Employee stock options outstanding account is used to recognise the grant date fair value of options issued to employees under the Company's stock option plan. The amount recognised in this reserve are transfer to security premium when options are exercised by the employees.

Capital contributions from Holding Company
It represents amount of Holding Company's equity settled employees stock options exercised by employees of the Company.

Share application money pending allotment
This balance represents funds received from investors who have applied for shares but have not yet been allocated any shares by the company.

Retained earnings
Retained earnings are the profits that the Company has earned till date, less any transfers to general reserve, dividends or other distributions paid to shareholders. Retained earnings include re-measurement gain on defined benefit plans, net of taxes that will not be reclassified to Statement of Profit and Loss. The amount is available for distribution to the shareholders.

Note:
(i) The Company has proposed to raise additional capital aggregating to INR 32,812.29 lakh through a Rights Issue of equity shares, pursuant to its Letter of Offer dated 19 March 2026, to support its strategic initiatives. On 23 March 2026, Amber Enterprises India Limited, the Holding Company, subscribed to the Rights Issue by acquiring equity shares of face value of INR 10 each, issued at a price of INR 2,375 per equity share including a premium of INR 2,365 per equity share, for an aggregate consideration of INR 29,602.71 lakh. The allotment of equity shares under the Rights Issue was duly completed on 21 April 2026.

As at 31 March 2026

Particulars	Current but not due	Outstanding for following period from the due date of payment				Total
		Less than 1 year	1-2 years	2-3 years	More than 3 years	
Undisputed dues of micro enterprises and small enterprises	738.68	249.74	-	-	-	988.42
Undisputed dues of creditors other than micro enterprises and small enterprises	10,565.74	5,850.78	7.98	-	-	16,424.50
Disputed dues of creditors other than micro enterprises and small enterprises	-	-	-	-	51.04	51.04
Total	11,304.42	6,100.52	7.98	-	51.04	17,463.96

As at 31 March 2025

Particulars	Current but not due	Outstanding for following period from the due date of payment				Total
		Less than 1 year	1-2 years	2-3 years	More than 3 years	
Undisputed dues of micro enterprises and small enterprises	426.95	181.59	-	-	-	608.54
Undisputed dues of creditors other than micro enterprises and small enterprises	23,414.96	10,325.73	17.37	6.56	-	33,764.62
Disputed dues of creditors other than micro enterprises and small enterprises	-	-	-	-	51.04	51.04
Total	23,841.91	10,507.32	17.37	6.56	51.04	34,424.20

(iii) Terms and conditions of the above financial liabilities:

Trade payables are non-interest bearing and are generally on terms of 15 days to 180 days.
For terms and conditions with related parties, refer to note 44.
For explanations on the Company's credit risk management processes, refer note 51.

29 Other financial liabilities (Current)		
Payables for capital goods	4,916.16	3,163.40
Interest accrued but not due on borrowing (also refer note 44)	30.35	63.90
Interest due to MSME [refer note 28(i)]	45.00	19.73
Employee related payables (also refer note 44)	897.01	647.37
Expenses payable	274.82	313.42
Foreign exchange forward contracts (derivative instrument at fair value through profit and loss) [refer note (i) below]	-	76.25
Supplier finance arrangement [refer note (ii) below]	7,653.50	8,210.57
	13,816.84	12,494.64

Notes:

(i) Derivative instruments at fair value through profit or loss reflect the negative change in fair value of those foreign exchange forward contracts that are not designated in hedge relationships, but are, nevertheless, intended to reduce the level of foreign currency risk for expected sales and purchases.

(ii) Considering the emerging practices on disclosures of trade credits and recent amendments to Ind AS, the Company has reassessed its presentation of amounts covered under supplier finance arrangements. Accordingly, short term acceptances in the nature of trade credits of INR 8,210.57 lakh as on 31 March 2025 which are within the normal working capital cycle of the Company have now been reclassed from 'Trade payables' and have been disclosed as 'Other financial liabilities'

30 Other current liabilities		
Advance from customers (contract liabilities)	853.87	1,927.31

41 Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of Equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the potential dilutive Equity shares into Equity shares.

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
The following reflects the income and share data used in the basic and diluted EPS computations:		
Profit attributable to equity holders of the Company:	**5,394.95**	**2,729.58**
Number of weighted average equity shares (Nominal value of INR 10 each) for basic EPS	65,05,832	52,15,292
Effect of dilution:		
Share options	21,692	-
Number of weighted average equity shares (Nominal value of INR 10 each) for diluted EPS	65,27,524	52,15,292
Earnings per share		
- Basic	82.92	52.34
- Diluted	82.65	52.34

The Company do not have any outstanding dilutive potential instruments as on 31 March 2026 and as on 31 March 2025 other than considered above.

	As at 31 March 2026	As at 31 March 2025
42 Commitments		
Estimated amount of contracts remaining to be executed on capital account not provided for (net of advances) for the acquisition of property plant and equipment	3,542.36	1,067.41
43 Contingent liabilities #		
Demands/claims from Government authorities		
a) Sales tax	1,389.82	1,389.82
b) Goods and services tax [refer note (ii) below]	40.11	40.11
c) Custom duty	19.45	-
Other claims against the Company not acknowledged as debts		
d) Other labour related cases [refer note (i) below]	118.50	108.00

Notes:-

(i) Other labour related cases majorly comprises of cases under Industrial Law claiming INR 87.50 lakh (31 March 2025 INR 77.00 lakh) for payment of wages.

(ii) Includes amount paid under protest INR 40.11 lakh (31 March 2025 INR 40.11 Lakh).

The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. Based on discussions with the solicitors/favourable decisions in similar cases/legal opinions taken by the Company, the management does not expect these claims to succeed and hence, no provision there against is considered necessary.

* Guarantees taken by the Company includes corporate guarantee from Holding Company for working capital borrowings, buyer credit and term loans. The original sanctioned limits of working capital borrowings, buyer credit and term loans sanctioned by the banks has been disclosed above.

Terms and conditions of transactions with related parties

The transactions of sale and purchases with related parties are made on terms equivalent to those prevailing in arm's length transactions. The outstanding balances at the year end of trading activities are generally unsecured. Interest is charged as per terms of the contract with the related parties which is at arm's length. The net outstanding balances are settled generally in cash.

There have been no guarantees provided or received for any related party receivables or payables other than disclosed above.

For the year ended 31 March 2026, the Company has not recorded any impairment of receivables relating to amounts owed by related parties (31 March 2025: INR Nil lakh). This assessment is undertaken each financial year through examining the financial position of the related party and the markets in which the related party operates.

46 Tax expense

The major components of income tax expense for the years ended 31 March 2026 and 31 March 2025 are:

Profit or loss section		
Current income tax:		
Current income tax charge	1,602.03	882.65
Adjustments in respect of current income tax of previous year	(125.83)	(5.17)
	1,476.20	**877.48**
Deferred tax		
Relating to origination and reversal of temporary differences	83.84	669.71
	83.84	**669.71**
Income tax expense reported in the statement of profit and loss	**1,560.04**	**1,547.19**
OCI section		
Deferred tax related to items recognised in OCI during the year:		
Re-measurement (gain) on defined benefit plans	(4.63)	(0.38)
Deferred tax charged to OCI	**(4.63)**	**(0.38)**

Reconciliation of tax expense and the accounting profit multiplied by domestic tax rate for 31 March 2026 and 31 March 2025:

Accounting profit before tax	6,954.99	4,276.77
Income tax using the Company's domestic tax rate *	25.17%	34.94%
At India's statutory income tax rate*	**1,750.45**	**1,494.47**
Non-deductible expenses for tax purpose	71.09	24.30
Impact of merger	382.42	-
Tax expense related to earlier years	-	(5.17)
Others	(643.92)	33.59
Total adjustments [B]	**(190.41)**	**52.72**
Income tax expense reported in the statement of profit and loss	**1,560.04**	**1,547.19**
* Domestic tax rate applicable to the Company has been computed as follows		
Base tax rate	22%	30%
Surcharge (% of tax)	10%	12%
Cess (% of tax)	4%	4%
Applicable rate	25.17%	34.94%

Note:

Unused tax credits

(i) MAT credit

As at 31 March 2026, the Company had unutilised Minimum Alternate Tax (MAT) credit amounting to INR 289.36 lakh (31 March 2025: INR 289.36 lakh). In accordance with the requirements of Ind AS 12 Income Taxes, MAT credit is recognised as a deferred tax asset only when it can be measured reliably and when it is probable that the future economic benefits associated with such credit will be realised.

During the year, the Company opted for the new tax regime under which the entitlement to carry forward and utilise MAT credit ceases. Consequently, the MAT credit balance outstanding as at 31 March 2026 was determined to be no longer recoverable and has been written off in the current year.

47 Ratio analysis and its elements

Sl. No.	Ratio	Measurement unit	Numerator	Denominator	As at 31 March 2026	As at 31 March 2025	Change	Remarks
					Ratio	Ratio		
1	Current ratio	Times	Current assets	Current liabilities	2.20	0.95	130.84%	Refer note(ii)
2	Debt-equity ratio	Times	Total debt [Non-current borrowings + Current borrowings+ Lease Liabilities]	Shareholder's equity	0.18	0.50	-64.51%	Refer note(iii)
3	Debt service coverage ratio	Times	Earnings available for debt service [Net profit after taxes + Non-cash operating expenses like depreciation and amortizations + Interest + Other adjustments like loss on sale of property, plant and equipment etc.]	Debt service [Finance cost + lease payments + principal repayments (other than pre-payments, if any)]	2.28	2.12	7.72%	Refer note(i)
4	Return on equity ratio	Percentage	Net Profits after taxes – Preference Dividend (if any)	Average Shareholder's Equity	3.58%	9.38%	-61.86%	Refer note(iii)
5	Inventory turnover ratio	Times	Revenue from operations	Average inventories ((Opening + Closing balance) / 2)	8.95	9.94	-9.97%	Refer note(i)
6	Trade receivables turnover ratio	Times	Revenue from operations	Average trade receivables [(Opening balance + Closing balance) / 2]	8.37	9.04	-7.41%	Refer note(i)
7	Trade payables turnover ratio*	Times	Total purchases	Average trade payables [(Opening balance + Closing balance) / 2]	7.41	6.70	10.57%	Refer note(i)
8	Net capital turnover ratio	Times	Revenue from operations	Working capital [Current assets - Current liabilities]	4.59	(64.88)	107.07%	Refer note(iv)
9	Net profit ratio	Percentage	Net profit after taxes	Revenue from operations	2.39%	1.46%	64.24%	Refer note(v)
10	Return on capital employed	Percentage	Profit before interest and taxes	Capital employed [Tangible net worth + Total debt + Deferred tax liability]	3.73%	9.86%	-62.20%	Refer note(iii)
11	Return on investment (Bank deposits)	Percentage	Interest from bank deposits	Weighted time average bank deposits	8.70%	11.33%	-23.27%	Refer note(i)

Refer note 29 (ii)

Notes:

(i) There is no significant change (25% or more) in FY 2025-26 in comparison to FY 2024-25.

(ii) The increase in ratio is primarily attributable to increase in bank deposits and decreases in trade payables during FY2025-26 in comparison to FY 2024-25.

(iii) The decrease in the ratio is primarily due to issue of equity share capital and compulsory convertible preference shares (CCPS) during the year.

(iv) The change in ratio is primarily attributable to the increase in revenue from operations and working capital during FY 2025-26 in comparison to FY 2024-25.

(v) The increase in ratio is primarily attributable to improved profit margins, driven by enhanced operational efficiency and effective cost management during FY 2025-26 in comparison to FY 2024-25.

IL JIN Electronics (India) Private Limited

48 Leases

Company as a leasee

The Company has leases for the factory lands and building. With the exception of short-term leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets in a consistent manner to its property, plant and equipment.

Each lease generally imposes a restriction that, unless there is a contractual right for the Company to sublet the asset to another party, the right-of-use asset can only be used by the Company at the end of the lease.

The Company also has certain leases of machinery with lease terms of 12 months or less and leases of office equipment with low value. The Company applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the period:

	Land	Building	Total
As at 01 April 2024	**446.95**	**2,115.72**	**2,562.67**
Additions	-	588.87	588.87
Depreciation expense	(4.62)	(234.06)	(238.68)
Disposals	-	(1,520.63)	(1,520.63)
As at 31 March 2025	**442.33**	**949.90**	**1,392.23**
Additions	-	1,801.40	1,801.40
Depreciation expense	(4.62)	(423.74)	(428.36)
Disposals	-	(1,607.33)	(1,607.33)
As at 31 March 2026	**437.71**	**720.23**	**1,157.94**

Set out below are the carrying amounts of lease liabilities and the movements during the period:

	As at 31 March 2026	As at 31 March 2025
As at 01 April	**1,187.12**	**2,394.71**
Additions	1,801.40	578.19
Accretion of interest	237.94	137.84
Payments	(530.90)	(314.31)
Deletions	(1,701.20)	(1,609.31)
As at 31 March	**994.36**	**1,187.12**
Current	295.06	286.48
Non-current	699.30	900.64

Notes:

(i) The maturity analysis of lease liabilities is disclosed in note 51.

(ii) The range of effective interest rates for lease liabilities is 9.00% p.a. to 13.38% p.a. (31 March 2025: 9.00% p.a. to 13.38% p.a.) with maturity between FY 2032 to 2102 (31 March 2025: FY 2032-2102)

(iii) The following are amounts recognised in profit or loss:

	As at 31 March 2026	As at 31 March 2025
Depreciation expense of right-of-use assets (refer note 39)	428.36	238.68
Interest expense on lease liabilities (refer note 38)	237.94	137.84
Expense relating to short-term leases (refer note 40)	180.55	497.49
Total	**846.85**	**874.01**

(iv) The Company had total cash outflows for leases of INR 711.45 lakh in the year ended 31 March 2026 (31 March 2025: INR 811.80 lakh). The Company also had non-cash additions to right-of-use assets and lease liabilities of INR 1,801.40 lakh in the year ended 31 March 2026 (31 March 2025: INR 578.19 lakh).

(v) The Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercises significant judgement in determining whether these extension and termination options are reasonably certain to be exercised (see note 2).

49 Employee benefit obligations

A Contribution to Defined Contribution Plans

The Company has defined contribution plans. Contributions are made to provident fund in India for employees as per regulations. The contributions are made to registered provident fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is as under:

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Employer's contribution to Provident Fund	162.11	157.71
Employer's contribution to Employee State Insurance	10.54	7.15
Expense recognised during the year	**172.65**	**164.86**

B Gratuity

Particulars	As at 31 March 2026		As at 31 March 2025	
	Current	Non-current	Current	Non-current
Gratuity	28.82	381.31	5.53	244.15
Total	**28.82**	**381.31**	**5.53**	**244.15**

Disclosure of gratuity

(i) The Company has a defined benefit gratuity plan (funded). The Company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund. Gratuity is computed as 15 days salary, for every completed year of service or part thereof in excess of 6 months and is payable on retirement/termination/resignation. The Gratuity plan is governed by the Payment of Gratuity Act, 1972 ("the Act") (also refer note 64). Under the Act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement/termination/resignation. The Gratuity plan for the Company is a defined benefit scheme where annual contributions as demanded by the insurer are deposited to provide gratuity benefits. The Company has taken an insurance policy, whereby these contributions are transferred to the insurer. The Company makes provision of such gratuity asset/liability in the books of account on the basis of actuarial valuation carried out by an independent actuary.

(ii) **Amount recognised in the statement of profit and loss is as under:**

Particulars	31 March 2026	31 March 2025
Current service cost	81.34	51.47
Past service cost (refer note 64)	85.51	-
Interest cost on benefit obligation	9.01	15.30
Net impact on profit (before tax)	**175.86**	**66.77**
Actuarial (gain) recognised during the year	(13.28)	(2.94)
Amount recognised in total comprehensive income	**162.58**	**63.83**

(iii) **Movement in the present value of obligation recognised in the balance sheet is as under:**

Particulars	31 March 2026	31 March 2025
Present value of defined benefit obligation as at the beginning of the year	**304.58**	**239.66**
Current service cost	81.34	51.47
Past service cost	85.51	-
Interest cost	12.31	17.24
Benefits paid	(6.49)	(0.27)
Actuarial (gain)	(14.42)	(3.52)
Present value of defined benefit obligation as at the end of the year	**462.83**	**304.58**

The Company expects to contribute INR 139.29 lakh (31 March 2025 : INR 81.48 lakh) to gratuity fund in the next financial year

(iv) **Movement in the plan assets recognised in the balance sheet is as under:**

Particulars	31 March 2026	31 March 2025
Fair value of plan assets at the beginning of the year	**54.90**	**26.83**
Expected return on plan assets	3.30	3.10
Contributions	2.14	36.03
Actuarial (loss) on plan asset	(1.14)	(0.58)
Benefits paid out of planned asset funds	(6.50)	(10.48)
Fair value of plan assets at the end of the year	**52.70**	**54.90**

*100% of fund is managed by Insurance Company.

(v) **Reconciliation of present value of defined benefit obligation and the fair value of assets:**

Particulars	31 March 2026	31 March 2025
Present value of funded obligation as at the end of the year	462.83	304.58
Fair value of plan assets as at the end of the year	52.70	54.90
Net liability recognized in balance sheet	**410.13**	**249.68**

(This space has been left blank intentionally)

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

(vi) Remeasurement gains/(losses) in other comprehensive income

Particulars	31 March 2026	31 March 2025
Actuarial (gain)/loss from change in financial assumption	(45.98)	0.17
Actuarial (gain) from experience adjustment	31.60	(3.13)
Actuarial (gain)/loss for the year on asset	1.10	0.02
Total actuarial (gain)/loss	**(13.28)**	**(2.94)**

(vii) Actuarial assumptions

Particulars	31 March 2026	31 March 2025
Discount rate	7.78%	6.99%
Rate of increase in compensation levels	5.50%	5.50%
Retirement age	60 years	60 years

(viii) Sensitivity analysis for gratuity liability

Particulars	31 March 2026	31 March 2025
Impact of change in discount rate		
Present value of obligation at the end of the year	**462.83**	**304.58**
- Impact due to increase of 0.50 %	(26.90)	(11.20)
- Impact due to decrease of 0.50 %	29.42	12.37
Impact of change in salary increase		
Present value of obligation at the end of the year	**462.83**	**304.58**
- Impact due to increase of 0.50 %	27.31	11.21
- Impact due to decrease of 0.50 %	(25.32)	(10.42)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period. The sensitivity analyses are based on a change in a significant assumption, keeping all other assumptions constant. The sensitivity analyses may not be representative of an actual change in the defined benefit obligation as it is unlikely that changes in assumptions would occur in isolation from one another.

(ix) Maturity profile of defined benefit obligation

Particulars	31 March 2026	31 March 2025
Within next 12 months	28.82	5.53
Between 1-5 years	56.08	48.64
Beyond 5 years	377.93	250.41

The average duration of the defined benefit plan obligation at the end of the reporting period is 19.47 years (31 March 2025: 20.18 years).

(This space has been left blank intentionally)

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

50 Fair value disclosures

i) Fair values hierarchy

Financial assets and financial liabilities measured at fair value in the financial statement are divided into three Levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
Level 2: Inputs other than quoted prices included within level 1 that are observable for assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
Level 3: Inputs from the assets or liabilities that are not based on observable market data (unobservable inputs)

ii) Financial instruments measured at fair value - recurring fair value measurements

The following table provides the fair value measurement hierarchy of company's financial assets and financial liabilities measured at fair value on a recurring basis.

Particulars	Level	31 March 2026	Level	31 March 2025
Financial assets				
Foreign exchange forward contracts (refer note (b) below)	Level 2	28.35	Level 2	-
Financial liabilities				
Derivative liability (refer (a) below)	Level 3	4,352.00	Level 3	1,770.00
Foreign exchange forward contracts (refer note (b) below)	Level 2	-	Level 2	76.25

A. Valuation process and technique used to determine fair value

(a) In order to arrive at the fair value of derivative asset and liability, the Company obtained fair value of options using monte carlo simulation method with the assistance of valuation expert.
(b) The fair value of foreign exchange forward contracts is based on valuation techniques, which employs the use of market observable inputs of pricing of forward contracts as at the balance sheet date.

B. Significant unobservable inputs used in Level 3 fair values and sensitivity of the closing values to such inputs is as below :

Particulars	31 March 2026		31 March 2025	
	Derivative asset	Derivative liability	Derivative asset	Derivative liability
Volatility				
- Impact due to increase of 5.00 %	-	946.73	-	144.20
- Impact due to decrease of 5.00 %	-	(1,107.74)	-	(144.80)
Weighted average cost of capital				
- Impact due to increase of 1.00 %	-	(1,320.83)	-	(131.80)
- Impact due to decrease of 1.00 %	-	1,192.26	-	139.20
EBITDA				
- Impact due to increase of 10.00 %	-	4,789.59	-	0.10
- Impact due to decrease of 10.00 %	-	(4,898.21)	-	(0.10)

(iii) Fair value of instruments measured at amortised cost

Fair value of instruments measured at amortised cost for which fair value is disclosed is as follows:

Particulars	Level	31 March 2026		31 March 2025	
		Carrying value	Fair value	Carrying value	Fair value
Financial assets					
Other financial assets	Level 3	66,825.69	66,849.85	1,533.70	1,564.42
Trade receivables	Level 3	25,520.28	25,520.28	28,371.28	28,371.28
Cash and cash equivalents	Level 3	1,778.39	1,778.39	512.37	512.37
Other bank balances	Level 3	234.42	234.42	103.16	103.16
Loans	Level 3	36,307.20	36,307.20	97.00	97.00
Total financial assets		**1,30,665.98**	**1,30,690.14**	**30,617.51**	**30,648.23**
Financial liabilities					
Borrowings	Level 3	44,707.61	44,707.61	21,987.65	21,987.65
Trade payables	Level 3	17,463.96	17,463.96	34,424.20	34,424.20
Other financial liabilities	Level 3	28,512.69	28,512.69	15,220.16	15,220.16
Total financial liabilities		**90,684.26**	**90,684.26**	**71,632.01**	**71,632.01**

The management assessed that cash and cash equivalents, other bank balances, trade receivables,loans,trade payables,other financial liabilities and current borrowings approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

(i) The fair values of the Company's interest-bearing borrowings, loans and other financial liabilities are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at 31 March 2026 and as at 31 March 2025 was assessed to be insignificant.

(ii) All the other long term borrowing facilities availed by the Company are variable rate facilities which are subject to changes in underlying interest rate indices. Further, the credit spread on these facilities are subject to change with changes in Company's creditworthiness. The management believes that the current rate of interest on these loans are in close approximation from market rates applicable to the Company. Therefore, the management estimates that the fair value of these borrowings are approximate to their respective carrying values.

(iii) There have been no transfer between three levels defined above during the year ended 31 March 2026 and 31 March 2025.

S. R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

51 Financial risk management

i) Financial instruments by category

Particulars	31 March 2026			31 March 2025

Investment in subsidiary and joint venture are carried at cost as per Ind AS 27 - Separate financial statements and therefore not presented here.

ii) Risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Ageing analysis	Bank deposits, diversification of asset base, credit limits and collateral
Liquidity risk	Borrowings and other liabilities	Rolling cash flowforecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (INR)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term and short-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors

The Company's risk management is carried out by a central treasury department (of the Company) under policies approved by the board of directors. The Board of Directors provides principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

A) Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Company's maximum exposure to credit risk is limited to the carrying amount of following types of financial assets.

- cash and cash equivalents,
- trade receivables,
- loans and receivables carried at amortised cost, and
- deposits with banks

a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the company, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low
B: Medium
C: High

Assets under credit risk –

Credit rating	Particulars	31 March 2026	31 March 2025
A: Low	Loans	36,307.20	97.00
	Cash and cash equivalents	1,778.39	512.37
	Other bank balances	234.42	103.16
	Other financial assets	66,854.04	1,533.70
	Trade receivables	25,520.28	28,371.28
C: High	Trade receivables	97.79	97.79

Cash and cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

b) Expected credit losses

Trade receivables

(i) The Company recognises lifetime expected credit losses on trade receivables using a simplified approach and uses historical information to arrive at loss percentage relevant to each category of trade receivables.

Ageing	31 March 2026			31 March 2025		
	Gross carrying amount - trade receivables	Expected loss rate*	Expected credit loss	Gross carrying amount - trade receivables	Expected loss rate*	Expected credit loss
Current but not due	18,421.06	0.00%	-	23,526.52	0.00%	-
Less than 6 months	7,044.02	0.00%	-	4,826.57	0.00%	-
6 months -1 year	37.54	0.00%	-	5.37	0.00%	-
1-2 years	17.66	0.00%	-	12.82	0.00%	-
2-3 years	-	0.00%	-	97.79	100.00%	97.79
More than 3 years	97.79	100.00%	97.79	-	0.00%	-
Total	**25,618.07**		**97.79**	**28,469.07**		**97.79**

*Amount is below the rounding off norms of the Company

(ii) Reconciliation of loss allowance provision from beginning to end of reporting period:

Reconciliation of loss allowance	Trade receivables
Loss allowance on 01 April 2024	-
Add (Less): Provision recognised during the year/(reversal) during the year	97.79
Loss allowance on 31 March 2025	**97.79**
Add (Less): Provision recognised during the year/(reversal) during the year	-
Loss allowance on 31 March 2026	**97.79**

Other financial assets measured at amortised cost

The Company provides for expected credit losses on loans and advances by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the Company can draw to apply consistently to entire population For such financial assets, the Company's policy is to provides for 12 month expected credit losses upon initial recognition and provides for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub category of such financial assets.

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

a) Financing arrangements

The Company had access to the following undrawn borrowing facilities at the end of the reporting period:

	31-03-2026	31-03-2025
- Expiring within one year (cash credit and other facilities)	38,193.83	19,048.16
- Expiring beyond one year (bank loans)	-	-
	38,193.83	**19,048.16**

(This space has been left blank intentionally)

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

b) **Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity Companying's based on their contractual maturities for all non-derivative financial liabilities.
The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

31 March 2026	On demand	Less than 1 year	1-3 years	3-5 years	More than 5 years	Total
Non-derivative						
Borrowings	-	7,636.84	8,296.12	3,063.53	25,711.12	44,707.61

C) **Market risk**

a) **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency)

(i) The Company uses foreign currency forward exchange contracts to hedge its risks associated with fluctuations in foreign currencies relating to foreign currency liabilities. The following are outstanding derivatives contracts:

Nature of hedge instrument	Description of hedge	31 March 2026		31 March 2025	
		Amount in foreign currency (USD/JPY)	Amount in INR Lakh	Amount in foreign currency (USD/JPY)	Amount in INR Lakh
Contract : Forward contract					
Forward contract	To take protection against appreciation in Indian Rupees against USD payable in respect of direct imports	91,05,972.00	8,619.19	98,47,464.90	8,427.59
Forward contract	To take protection against appreciation in Indian Rupees against JPY payable in respect of direct imports	62,23,58,558.00	3,687.47	73,20,05,247.00	4,154.13

(ii) Unhedged foreign currency risk exposure in foreign currencies:

The Company exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows

Particulars	31 March 2026					31 March 2025				
	ILS	Euro	USD	CNY	JPY	ILS	Euro	USD	CNY	JPY
Financial assets	21,214.24	-	102.56	-	-	-	-	66.15	-	-
Financial liabilities	-	47.12	-	952.87	1,957.82	-	71.90	3,715.44	1,980.90	98.75
Net exposure to foreign currency risk (liabilities)	**21,214.24**	**(47.12)**	**102.56**	**(952.87)**	**(1,957.82)**	-	**(71.90)**	**(3,649.29)**	**(1,980.90)**	**(98.75)**

Sensitivity

The sensitivity of profit or loss before tax and equity to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

Particulars	31 March 2026	31 March 2025
USD sensitivity		
INR/USD- increase by 5.00% (31 March 2025 : 2.43%)*	5.13	(88.68)
INR/USD- decrease by 5.00% (31 March 2025 : 2.43%)*	(5.13)	88.68
CNY sensitivity		
INR/CNY- increase by 5.09% (31 March 2025 : 4.38%)*	(48.50)	(86.76)
INR/CNY- decrease by 5.09% (31 March 2025 : 4.38%)*	48.50	86.76
JPY sensitivity

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

b) Interest rate risk

i) Liabilities

The Company's policy is to minimise interest rate cash flow risk exposures on long-term financing. At 31 March 2026, the Company is exposed to changes in market interest rates through bank borrowings at variable interest rates. The Company's investments in fixed deposits all pay fixed interest rates.

Interest rate risk exposure

Below is the overall exposure of the Company to interest rate risk:

Particulars	31 March 2026	31 March 2025
Variable rate borrowing	44,707.61	21,980.70
Fixed rate borrowing	-	6.95
Total borrowings	**44,707.61**	**21,987.65**

Sensitivity

Below is the sensitivity of profit or loss and equity changes in interest rates.

Particulars	31 March 2026	31 March 2025
Interest sensitivity*		
Interest rates – increase by 100 bps (31 March 2025: 100 bps)*	447.08	219.81
Interest rates – decrease by 100 bps (31 March 2025: 100 bps)*	(447.08)	(219.81)

** Holding all other variables constant*

ii) Assets

The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company has advanced loans at fixed interest rates. The loans are therefore not subject to interest rate risk as defined in Ind AS 107.

c) Price risk

The Company does not have any significant investments in equity instruments which create an exposure to price risk.

52 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a debt equity ratio, which is total borrowing divided by total equity.

The Company includes within total borrowing, interest bearing loans, borrowings and lease liabilities.

(a) Debt equity ratio

Particulars	31 March 2026	31 March 2025
Total debts	45,701.97	23,174.77
Total equity	2,55,733.24	46,021.89
Debt to equity ratio	**0.18**	**0.50**

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2026 and 31 March 2025.

53 Revenue from Contracts with Customers

Indian Accounting Standard 115 Revenue from Contracts with Customers ("Ind AS 115"), establishes a framework for determining whether, how much and when revenue is recognised and requires disclosures about the nature, amount, timing and uncertainty of revenues and cash flows arising from customer contracts. Under Ind AS 115, revenue is recognised through a 5-step approach:

(i) Identify the contract(s) with customer;
(ii) Identify separate performance obligations in the contract;
(iii) Determine the transaction price;
(iv) Allocate the transaction price to the performance obligations; and
(v) Recognise revenue when a performance obligation is satisfied.

(a) Disaggregation of revenue

Set out below is the disaggregation of the Company's revenue from contracts with customers:

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Revenue from contracts with customers		
Sale of products	2,15,832.20	1,77,971.41
Total revenue from contracts with customers	**2,15,832.20**	**1,77,971.41**
Revenue by geography		
Within India	2,15,699.68	1,77,864.74
Outside India	132.52	106.67
Total revenue from contracts with customers	**2,15,832.20**	**1,77,971.41**
Timing of revenue recognition		
Goods transferred at a point in time	2,15,832.20	1,77,971.41
Total revenue from contracts with customers	**2,15,832.20**	**1,77,971.41**

(b) Revenue recognised in relation to contract liabilities

Ind AS 115 also requires disclosure of 'revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the period' and 'revenue recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods. Same has been disclosed as below:

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Revenue recognised in the reporting period that was included in the contract liability balance at the beginning of the period	1,927.31	2,428.70
Revenue recognised in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods	-	-
Total	**1,927.31**	**2,428.70**

(c) Contract balances

Particulars	As at 31 March 2026		As at 31 March 2025	
	Non-current	Current	Non-current	Current
Trade receivable (refer note 14)	-	25,520.28	-	28,371.28
Contract liabilities related to sale of goods				
Advance from customers (refer note 30)	-	853.87	-	1,927.31

(iv) Trade receivables are non-interest bearing and are generally on terms of 7 days to 90 days.
Contract liabilities consist of short-term advances received from customer to supply goods.

(d) Reconciliation of revenue recognised in Statement of Profit and Loss with contract price

Particulars	For the year ended 31 March 2026	For the year ended 31 March 2025
Revenue as per contract price	2,16,350.82	1,79,273.45
Less: Sale return	(518.62)	(1,302.04)
Revenue from operations as per Statement of Profit and Loss	**2,15,832.20**	**1,77,971.41**

(e) Performance obligations

The performance obligation is satisfied upon delivery of the product and payment is generally due within 7 days to 90 days from delivery.

IL JIN Electronics (India) Private Limited

54 (i) Share based payments

(a) Scheme details

The Holding Company has Employee Stock Option Scheme i.e. "Amber Enterprises India Limited - Employee Stock Option Plan 2017" ("Plan"), under which the Nomination and Remuneration Committee, at its discretion, may grant share options of the company to eligible employees of the Company or to the employees of any of its subsidiary company. Under this plan, the options shall vest not earlier than 1 (One) year and not later than maximum Vesting Period of 5 (Five) years from the date of Grant. Vesting of Options would be subject to continued employment with the Company, including with the Subsidiaries, as the case may be, and thus the Options would vest essentially on passage of time.

Number of options granted	Grant date	Vesting date	Exercise period	Exercise price	Fair value of option on grant date
2,500	13-May-22	12-May-23	3 years from date of vesting	2,879.45	1,372.00
2,500	13-May-22	12-May-24	3 years from date of vesting	2,879.45	1,533.90
2,500	13-May-22	12-May-25	3 years from date of vesting	2,879.45	1,674.00
2,500	13-May-22	12-May-26	3 years from date of vesting	2,879.45	1,825.20
12,500	19-Apr-21	18-Apr-24	3 years from date of vesting	2,400.00	1,598.10
12,500	19-Apr-21	18-Apr-25	3 years from date of vesting	2,400.00	1,731.00

(b) Compensation expenses arising on account of the share based payments

	31 March 2026	31 March 2025
Expenses arising from equity – settled share-based payment transactions	15.68	84.94
Total	**15.68**	**84.94**

(c) Fair value on the grant date

The fair value at grant date is determined using "Black Scholes Pricing Model" which takes into account the exercise price, term of the option, share price at grant date and expected price volatility of the underlying shares, expected dividend yield and the risk free interest rate for the term of the option.

The following inputs were used to determine the fair value for options granted on 19 April 2021:

Particulars	Vest 3	Vest 4
Number of options granted	12,500.00	12,500.00
Grant date	19-Apr-21	19-Apr-21
Financial year of exercise	2024-25 to 2027-28	2025-26 to 2028-29
Share price on grant date (in INR)	3,147.95	3,147.95
Expected life (in years)	4.5	5.5
Price volatility of company's share *	42.10%	42.20%
Risk free interest rate	5.50%	5.80%
Exercise price (in INR)	2,400.00	2,400.00
Dividend yield	0.29%	0.29%
Fair value of option (in INR)	1,598.10	1,731.00

The following inputs were used to determine the fair value for options granted on 13 May 2022.

Particulars	Vest 1	Vest 2	Vest 3	Vest 4
Number of options granted	2,500.00	2,500.00	2,500.00	2,500.00
Grant date	13-May-22	13-May-22	13-May-22	13-May-22
Financial year of exercise	2023-24 to 2026-27	2024-25 to 2027-28	2025-26 to 2028-29	2026-27 to 2029-30
Share price on grant date (in INR)	3,379.45	3,379.45	3,379.45	3,379.45
Expected life (in years)	2.5	3.5	4.5	5.5
Price volatility of company's share *	47.10%	43.70%	41.90%	41.90%
Risk free interest rate	6.70%	7.10%	7.20%	7.40%
Exercise price (in INR)	2,879.45	2,879.45	2,879.45	2,879.45
Dividend yield	0.29%	0.29%	0.29%	0.29%
Fair value of option (in INR)	1,372.00	1,533.90	1,674.00	1,731.00

* The measure of volatility used is the annualized standard deviation of the continuously compounded rates of return of stock over the expected lives of different vests, prior to grant date. Volatility has been calculated based on the daily closing market price of the Company's stock on BSE over these years.

(d) Movement in share options during the year

Particulars	Number of options	Weighted average exercise price
Options outstanding as on 01 April 2024	35,000	2,536.99
Options granted during the year (upon transfer of employee)	-	-
Options forfeited/lapsed/expired during the year	-	-
Options exercised during the year	2,000	2,879.45
Options outstanding as at 31 March 2025	33,000	2,516.23
Options granted during the year	-	-
Options forfeited/lapsed/expired during the year	-	-
Options exercised during the year	11,500	2,525.07
Options outstanding as at 31 March 2026 ^#	21,500	2,511.50
Exercisable at the end of the period.	19,000	2,463.09

^ The weighted average remaining contractual life of the share options outstanding at the end of year is 1.99 years (31 March 2025 : 2.66 years)
# The weighted average fair value of share options outstanding at the end of year is INR 1,699.65 per share option (31 March 2025 : INR 1,655.97 per share option).

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

55 Business combinations of entities under common control

A. Scheme of Amalgamation

The Board of Directors of the Company, in its meeting held on 10 February 2024, approved the Scheme of Amalgamation between the Company ("Transferee Company") and its fellow subsidiary, Ever Electronics Private Limited ("Transferor Company"), by way of and in accordance with the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013 (hereinafter referred to as the "Scheme"). The aforesaid Scheme was sanctioned by Hon'ble National Company Law Tribunal, Mumbai Bench (NCLT) vide its Order dated 30 May 2025 pursuant to which certified copy of the order was issued on 24 June 2025. As per the approved scheme, the appointed date is 01 April 2023. The order was filed with Registrar of Companies on 27 June 2025 ("effective date"), on which date, the transferor company stood dissolved.

Consequent to above, the entire business and whole of the Undertaking (including all assets, properties, titles, licenses, interests, investments, liabilities, rights, commitments and obligations) of the Transferor Company, without any further act, instrument or deed, stood transferred to and vested in Transferee Company, as a going concern.

B. Rationale for Amalgamation

1. The amalgamation would result in significant reduction in multiplicity of legal and regulatory compliances, multiple record-keeping and cost saving by way of reduction of overheads, administrative, managerial and other expenditure.

2. The amalgamation will lead to synergies of operations and will help the merged entity in reaps the economies of scale, improving organizational capability to enable the entity to compete in an increasingly competitive industry.

3. Greater efficiency in management of the merged entity and deployment of funds for organic and inorganic growth opportunities, to maximize shareholder value.

C. Accounting treatment

The Transferee Company has accounted for such merger in accordance with using "Pooling of Interest Method" as laid down in Appendix C to Ind-AS 103 - "Business Combinations" of entities under common control notified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015 as specified in the scheme.

Further, as per paragraph 9 (iii) of Appendix C to Ind AS 103, the financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period presented. Accordingly, following treatment has been counted for the merger by the Company:

(a) The assets and liabilities appearing in the books of the Transferor Company, shall stand transferred in the books of account of the Transferee Company at their existing carrying amounts and in the same form as appearing in the books of account of the Transferor Company.

(b) The identity of the reserves of the Transferor Company, shall be preserved and shall appear in the financial statements of Transferee Company in the same form and at the same values at which they appeared in the financial statements of the Transferor Company.

(c) Inter-company balances, if any, between the Transferor Company and the Transferee Company shall stand cancelled and there shall be no further obligation in that behalf.

(d) The surplus, if any, arising after taking the effect of clause (a),(b) and (c) above shall be transferred to Capital Reserve in the financial statements of the Transferee Company. The deficit, if any, arising after taking the effect of clause (a),(b) and (c) above shall be adjusted against Retained Earnings in the financial statements of the Transferee Company.

(e) In case of any differences in accounting policies between the Transferor Company and the Transferee Company, the accounting policies followed by the Transferee Company shall prevail to ensure that the financial statements reflect the financial position based on consistent accounting policies.

(f) Comparative financial information in the financial statements of the Transferee Company shall be restated for the accounting impact of the merger of the Transferor Company, as stated above, as if the merger had occurred from the beginning of the comparative period presented. However, if common control over the Transferor and Transferee Companies came into existence after that date, the prior period information shall be restated only from the date of the common control.

(This space has been left blank intentionally)

S.R. Batliboi & Co. LLP Gurugram

IL JIN Electronics (India) Private Limited

60 The Company has appointed independent consultants for conducting a transfer pricing study to determine whether the international transactions with associate enterprises and specified domestic transactions were undertaken at "arm's length basis". Adjustments, if any arising from the transfer pricing study shall be accounted for as and when the study is completed. The management confirms that all international transactions with associate enterprises and specified domestic transactions are undertaken at negotiated contracted prices on usual commercial terms. Transfer pricing certificate under Section 92E for the year ending 31 March 2025 has been obtained and there are no adverse comments requiring adjustments in these accounts.

61 The Company has used accounting software Microsoft D365 for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that audit trail feature is not enabled at the database level insofar as it relates to the accounting software. Further, no instance of audit trail feature being tampered which was noted in respect of accounting software where the audit trail has been enabled.

Additionally, the audit trail of prior years has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

62 In pursuant to the amendment in Companies (Accounts) Rules 2014, the Company is maintaining proper books of account and other relevant books and papers in electronic mode which is accessible in India at all times. The books of account maintained in electronic mode were not being backed-up on a daily basis on a server physically located in India, due to design limitation in the of Microsoft D365 accounting software. During the year ended 31 March 2026, the aforesaid issue has been rectified and accordingly, the books of accounts maintained in electronic made are now being backed-up on a daily basis on server physically located in India.

63 The Company, being a subsidiary of Amber Enterprises India Limited, has obtained no objection certificate from Non-controlling interest shareholders pursuant to Rule 6 of Companies (Accounts) Rules, 2014 and availed exemption under Ind AS 110 - Consolidated Financial Statements for preparation of the consolidated financial statements since the ultimate holding company i.e. Amber Enterprises India Limited has prepared the consolidated financial statements which are available for public use.

64 **Exceptional items**

Particulars	31 March 2026	31 March 2025
Impact of new labour code on gratuity	85.51	-
Total	**85.51**	-

On November 21, 2025, the Government of India notified four Labour Codes- the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020, consolidating 29 existing labour laws. The Ministry of Labour & Employment published Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Company has assessed and disclosed the incremental impact of these changes on the basis of the best understanding of the new regulations. The Company has assessed and disclosed the incremental impact of these changes on the basis of the best understanding of the new regulations. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented such incremental impact consists of gratuity of INR 85.51 lakh as exceptional item for the year ended March 31, 2026. The Company continues to monitor the finalisation of State Rules and clarifications from the Government on other aspects of the Labour Codes and would provide appropriate accounting effect on the basis of such developments as needed.
